S.B. 90 Human Services Allocation Formulas

Requires formulas for distribution of state and federal funds for aging, alcoholism and drugs, mental health and state funds for health districts be based on need with population being the primary need indicator unless other valid need factors are established. Formulas must include a differential for cost of services in rural areas. Allows a three year phase period for adjustment of current formulas.

S.B. 91 State Assumption of Medical Indigent Program

Makes the Utah Medical Indigent Program a State responsibility. Will be financed by \$1,928,000 reduction in general fund allocations to local aging alcohol and drugs, mental health and public health programs.
